

SELECTOR GUIDE

EXCLUSIVE STATIC MIXERS

Ellsworth Adhesives static mixers are used to automatically mix two-part adhesives during application. They enhance control, produce less waste, and save time by eliminating manual mixing. The various sizes and alternating angled elements ensure consistent and accurate dispensing with products of various viscosities and cure times.

Sold in packs of 50.

Item Number	Description	
EDS500-30S	Bell Mouth, 1/2" x 30 elements, 14.1" length	
EDS500-24S	Bell Mouth, 1/2" x 24 elements, 11.6" length	
EDS430-24S	Bell Mouth, 7/16" x 24 elements, 10.9" length	
EDS370-24S	Bell Mouth, 3/8" x 24 elements, 9.1" length	
EDS370-18S	Bell Mouth, 3/8" x 18 elements, 7.3" length	
EDS250-32LS	Bell Mouth, 1/4" x 32 elements, 9.5" length	
EDS250-24LL	Bell Mouth w/ Luer Lock, 1/4" x 24 elements, 7.5" length	
EDS250-24LS	Bell Mouth, 1/4" x 24 elements, 7.5" length	
EDS250-24S	Bell Mouth, 1/4" x 24 elements, 7.3" length	
EDS250-20LL	Bayonet w/ Luer Lock, 1/4" x 20 elements, 6" length	
EDS250-20S	Bayonet, 1/4" x 20 elements, 5.87" length	

Need help selecting the right dispensing equipment for your application?

Ellsworth Adhesives offers in-house technical service support to help with material and dispensing equipment selection. Choosing a material is just the beginning – proper adhesive application requires the right equipment to promote greater accuracy, reduce waste, and improve efficiencies.
