

COVID-19 Update - We are here for you.

We want to let you know that Enercon remains open to support you.

While the State of Wisconsin has issued a new *Safer at Home* Order which restricts non-essential travel in the state, this does not prevent Enercon from being in operation.

Enercon is considered part of the United States' Essential and Critical Infrastructure as defined by the U.S. Department of Homeland Security, Cybersecurity & Infrastructure Security Agency (CISA) Memorandum. Our team is proud to support so many industries deemed essential.

We have taken numerous steps to minimize risks to our employees while continuing to support our customers. For more information, please see our [complete COVID-19 statement on our website](#).

In the meantime if there is anything we can do for you, please [contact us](#).

Best Regards,

Mark Plantier
VP Marketing
Enercon Industries
