

FOR IMMEDIATE RELEASE

Ellsworth Adhesives Bringing Innovative Electrification Solutions to The Battery Show 2025

DETROIT, MI — [Ellsworth Adhesives](#) is headed to The Battery Show at The Huntington Place in Detroit this October to showcase the latest material and equipment solutions enabling safer, higher-performing batteries.

Visit The Glue Doctors™ at Booth #6311 from October 7-9 to explore [top-tier EV adhesives](#), thermal gap fillers, dielectric coatings, thermal runaway prevention, custom converted tapes, precision dispensing robotics, and specialized machines up close.

[The Adhesive Experts](#) will be joined by top manufacturers in the EV space—Dow, H.B. Fuller, and Parker Lord—to feature their innovative battery solutions ranging from resealable form-in-place gaskets to fire prevention foams and silicone-based gap fillers.

Engineers from across battery applications are encouraged to visit and explore Ellsworth's wide variety of products driving safer, higher-performing, and longer-lasting battery systems. This year's show is co-located with Electric & Hybrid Vehicle Technology, so attendees can expect to make valuable connections from across the industry.

Visit The Adhesive Experts to see:

- EV adhesive solutions from top-tier manufacturers
- Custom stacked and shaped tapes, foams, & thermal pads
- In-booth robotic dispensing demonstrations
