- Cost Center Tracking
- **Easy to Use!**

**Add on vending solutions also available!**

## Hear what others are saying about Ellsworth Adhesives' ePlus...

“Since our implementation we have not experienced a single stock out and our waste stream has been reduced by 65 percent.”

Parker Aerospace, GA

“Ellsworth Adhesives has been able to manage our items with few shelf life scraps and they’ve kept us out of line-down situations. We’re confident in the ePlus system because we can get timely information on what is in stock and what is in the incoming supply chain. Their system also allows us to see real-time information regarding actual shelf life of stock on hand, which is critical in our industry.”

Leach International, CA

“We have been able to completely eliminate our prior manual process of managing inventory – this has saved us a considerable amount of time. As a result, we have experienced a dramatic improvement in our inventory management and a significant reduction in manual purchase order generation. Furthermore, the Ellsworth Adhesives' ePlus program has given our tool crib attendants additional free time to work on more value-added processes.”

Plexus Corporation, WI
