

DTD50 50 ml Dispenser

The DTD50 is a pneumatically controlled dispense tool for precisely dispensing two component materials packaged into 50 ml dual cartridges.

With its simple design and operation, accurate and repeatable fluid deposits are quickly and easily created when connected to a dispense controller.

Features & Benefits

- Lightweight and durable design
- Use as a handheld device or mounted on a stand or robot for hands-free dispensing
- Suitable for all ratio sizes including: 1:1, 2:1, 4:1, and 10:1

DC100 controller, cartridge & mix nozzle sold separately.
