

Formulation H812 Adhesive

- High Viscosity
- High Shear
- Die-Cuttable
- Wide Service Temperature Range

*Selecting the Right Adhesive
is Quick and Easy.*

*Our experts will help you choose
the ideal combination of melting point,
bond strength, service life and chemistry
to create the most effective
adhesive solution.*

Formula H812 from GDI Adhesives is a die-cuttable, tough adhesive with high shear strength. This formula provides a tamper-evident bond that builds in strength quickly and can overcome the forces of hinge memory. This adhesive is used in a variety of Industries including tape & label as well as product assembly.

-  A good combination of both cohesive and adhesive strength properties
-  Wide service temperature range
-  High Viscosity – 14,200 to 24,500 CPs @ 350°F
-  Melting Point – 203°F to 215°F
