WHAT CAN WE GLUE FOR YOU?
Confused about what equipment you need?

There’s a lot to choose from! But we recommend selecting the correct adhesive for your application first. This will make it easier to choose suitable tools and accessories.
tecbond® hot melt adhesives provide instant, permanent bonding on a vast range of materials without the use of harmful solvents. They are ideal for fast repetitive gluing applications.

tecbond® hot melts are available in stick, cartridge and bulk forms. They can be used in tools ranging from the smallest hand guns to fully automatic bulk tank systems. Once loaded the solid adhesive is melted by the applicator and then applied to the surface being bonded.

Most materials can be bonded with hot melt adhesives providing the parts can be assembled while the adhesive is still molten. The molten adhesive is applied to one of the surfaces to be bonded. When the parts are pressed together the heat quickly dissipates into the substrates, which solidifies the adhesive, and a bond or seal is made instantly.

Working times of our hotmelts vary from just a few seconds to several minutes: the actual time will depend on adhesive formulation, ambient temperature, substrate temperature, and the amount and configuration of the adhesive applied.

tecbond® hot melts are 100% solid, non-toxic adhesives containing no solvents (no VOCs) or water. Users do not have to worry about odours or mould in finished products, or about paying for a solvent that just evaporates.

tecbond® hot melt adhesives are safe and easy to store, and have a virtually unlimited shelf life.

tec™ glue guns are designed to apply our wide range of tecbond® hot melt adhesives, easily, quickly and reliably. They are low-cost capital items, highly portable and designed to be totally reliable in tough industrial environments.

tec™ glue guns can apply hot melt adhesive in bead, dot and even spray patterns, depending on the model selected.

The wattage of the tool normally determines the melt-rate. Tool selection should be based on the amount of adhesive required per assembly, as well as the number of assemblies needed to be produced per hour.

In general the larger tools are more powerful and are capable of providing greater volumes of hot melt adhesive, at the correct temperature, for optimum bonding.

Do you have a question about any products within the tec or tecbond range? Just give our sales team a call - they’ll be happy to advise you. Find our contact details on the back page.

12mm (½") tec hot melt glue guns

**tec 305-12**

- **Melt rate**: 900g (2lbs)/hr
- **Glue size**: 12mm (½") glue stick
- **Voltage**: 110-240V
- **Wattage**: 20W (150W)
- **Heater**: PTC
- **Temp Control**: Self-regulating heater
- **Hotmelt gun °C (°F)**: 195°C (380°F)
- **Lowmelt gun °C (°F)**: 130°C (265°F)
- **Power cable**: 2m (6½ ft)
- **Weight**: 250g (9oz)
- **Packaging**: PET blister (10 per ctn)

**tec 810-12**

- **Melt rate**: 2.0kg (4½lbs)/hr
- **Glue size**: 12mm (½") glue stick
- **Voltage**: 120V and 230V
- **Wattage**: 250W
- **Heater**: Cartridge
- **Temp Control**: Interchangeable thermostat
- **Hotmelt gun °C (°F)**: 195°C (380°F)
- **Lowmelt gun °C (°F)**: 130°C (265°F)
- **Power cable**: 3m (10 ft)
- **Weight**: 500g (18oz)
- **Packaging**: Plain box (10 per ctn)

**tec 820-12**

- **Melt rate**: 2.5kg (5½lbs)/hr
- **Glue size**: 12mm (½") glue stick
- **Voltage**: 120V and 230V
- **Wattage**: 250W
- **Heater**: Cartridge
- **Temp Control**: User adjustable thermostat
- **Hotmelt gun °C (°F)**: Adjustable 130-200°C (265-390°F)
- **Lowmelt gun °C (°F)**: Covered above
- **Power cable**: 3m (10 ft)
- **Weight**: 500g (18oz)
- **Packaging**: Plain box (10 per ctn)

Problems? Don't worry! All of our equipment carries a 12 month warranty.
Introducing our new high-quality, low-cost, economy 12mm glue gun

Improved quality, same low cost

Introducing the tec 806-12, the brand new replacement for the low-cost 805-12 glue gun. The tec 806-12 combines high quality and cost efficiency with a new and improved lightweight, economic design - all for the same low price. It’s improved features include a new soft-feel handle, making it a much more comfortable gun to use. Plus, the 2m cordset of the 805-12 is now replaced with a longer, 3m cordset for improved reach when working. This updated design also incorporates a new heater housing, which heats the glue more evenly before feeding it straight through the gun, resulting in a smoother application.

Even easier to use

With an improved mechanism, the tec 806 is easier to use for longer, and has been designed to ensure optimum user-comfort with a new soft-feel grip. It also features an adjustable trigger, which means that alterations can be made to suit different hand sizes, or to achieve different outputs per trigger pull. It also includes a sturdy base, so it can be stood up between uses with no risk of the glue melting back. Plus, the 806 has been modelled with a narrow profile to aid visibility and ensure that adhesive can be accurately applied. It also has an easy-to-clean nose, so any dried glue can be wiped off to keep your gun in good condition.

Fast warm-up

The tec 806-12 has a fast heat up time of only 2-3 minutes from cold, so is ready for use almost immediately. It is fitted with an illuminated on/off switch, which now features a new moulding to shield it, preventing it from being turned on or off by accident. The tec 806-12 can also operate on any voltage from 110V to 240V due to its PTC self-regulating heater, offering users even more flexibility.

Low cost medium size industrial 12mm (½") glue gun, eco heater chamber design for low power consumption, robust & easy to use. Medium output, 3 minute warm-up time & illuminated on/off switch.

**tec 806-12**

- Melt rate: 1.8kg (4lbs)/hr
- Glue size: 12mm (½") glue stick
- Voltage: 110-240V
- Wattage: 25W (250W)
- Heater: PTC
- Temp Control: Self-regulating heater
- Hotmelt gun °C (°F): 195°C (380°F)
- Lowmelt gun °C (°F): n/a
- Power cable: 3m (10 ft)
- Weight: 450g (16oz)
- Packaging: PET blister (10 per ctn)

Scan for the tec 806 video!

Ideal for...

- **Woodworking**: The tec 806-12 can be used for a range of woodworking applications, with a good output and smooth operation.
- **Product assembly**: It is ideal for product assembly too, and the slim profile of the 806 means that the adhesive can be accurately applied.
- **Packaging**: Robust and reliable, the tec 806 is also ideal for a range of carton closing and packaging applications.

12mm (1/2") cordless tec glue guns

**Battery powered glue gun**

The b-tec 807 can be purchased alone (with or without a case), or as part of a kit. Spare charger and battery sets are also available.

**Exclusive LEC™ technology**

Refilling is fast and simple using standard cigarette lighter canisters.

---

**12mm (1/2") precision extension nozzle fitted as standard**

---

**Narrow profile and extension nozzle fitted as standard to aid accurate glue placement**

---

**Battery powered glue gun**

- **Melt rate**: 1.7kg (3.7lbs)/hr
- **Glue size**: 12mm (1/2") glue stick
- **Voltage**: Gas powered
- **Wattage**: 185W (equivalent)
- **Heater**: Catalytic
- **Temp Control**: Thermostatic gas valve
- **Hotmelt gun °C (°F)**: 195°C (380°F)
- **Lowmelt gun °C (°F)**: n/a
- **Power cable**: Cordless
- **Weight**: 390g (14oz)
- **Packaging**: PET blister (10 per ctn)

---

**Exclusive LEC™ technology**

The gas-tec 600 is a totally portable, robust compact hot melt glue gun that runs on butane gas. It does not require mains electricity or batteries but operates using easily refillable LEC™ (Liquid Energy Cells) power technology. The gas-tec 600 has been built to a very high standard and incorporates a soft-feel handle and full-hand trigger, making it a very comfortable gun to use.

The b-tec 807 can be purchased alone (with or without a case), or as part of a kit. Spare charger and battery sets are also available.
The sky’s the limit with cordless tec

No mains electricity supply? 
No problem.

The cordless tec range of guns gives you the freedom to work virtually anywhere as there are no power cables and no need for an electrical power source. Both guns are easy to use and offer great accessibility, making them ideal for trickier applications.

Ideal for...

**Attaching cables**
- The portability and independent power source of the cordless guns make them ideal for applications like attaching low-voltage cables.

1. Attaching cables
- The portability and independent power source of the cordless guns make them ideal for applications like attaching low-voltage cables.

2. Dent repair
- Both cordless guns can also be used as part of a paint-less dent repair system that, used together with the rest of the kit, can remove dents from cars.

3. Flooring
- Great for applications where freedom of movement is important, the cordless tec glue guns are perfect for jobs like laying gripper rods and repairing wooden floors.

4. Securing devices
- Neither cordless tec glue gun needs to be plugged in, which means they can also be used at height to attach devices such as PIRs.

NEW 12mm (½") tecbond glue sticks

**Ideal for...**

Creating temporary bonds that can easily be peeled apart

A peelable - or fugitive - glue, Peeltec 210 can be removed easily once dry without any residual tack or residue. When applied sparingly it won’t damage either surface, making it ideal for creating temporary bonds. It can be used on many different materials, including plastics and a range of paper types and board - with various print finishes and varnishes.

**peeltec 210**

- **Open time**: Very short
- **Molten tack**: Medium
- **Heat resistance**: 120°C (248°F)
- **Low temperature flexibility**: -30°C (-22°F)
- **Glue size**: 12mm (½")
- **Colour**: Off white

**Learn more! Scan for video**

**Temporary bonds**

Ideal for fixing credit or debit cards to letters, which can then be easily peeled off.

**Giveaways**

Peeltec 210 is perfect for attaching objects to magazines or catalogues for giveaways.

**Glue dots**

Create simple glue dots with a 12mm glue gun, without the need for a specialist dispenser.

**Tecbond 239**

Tecbond 239 is based on a more flexible, clearer polymer, that has been carefully matched with the other components to maintain the maximum clarity possible.

**Open time**

- Medium

**Molten tack**

- Medium

**Heat resistance**

- 70°C (158°F)
- -30°C (-22°F)

**Glue size**

- 12mm (½"), 15mm (⅝")

**Colour**

- Crystal clear

**Ideal for...**

Gap filling, and use on porous fabrics & foams

**Packaging**

Because it’s so clear, tecbond 239 can be used with clear packaging materials to great effect.

**Crafting & floristry**

Tecbond 239 is ideal for use on porous fabrics and foams like those used in crafting and floristry.

**Decoration & gap filling**

Its high viscosity and ultra-clear appearance also make it ideal for decorating with things like air plants, filling gaps and adding stability.

**Did you know? Over 90% of our products are manufactured in the UK.**
15mm (5/8") tecbond glue sticks

Get even more glue per trigger pull with 15mm (5/8") glue

15mm (5/8") glue

12mm (1/2") glue

Increased output

With 30% more molten glue per trigger pull, you can up your productivity just by using 15mm (5/8") adhesive.

Less downtime

Tec 15mm (5/8") glue guns hold up to 60% more glue when compared with their 12mm (1/2") counterparts, so they don't need to be reloaded as often. Plus, all 15mm (5/8") tools have highly efficient melt chambers which see them heat up in only 2-3 minutes.

Same easy application

All of these benefits with the same tecbond quality that you’d expect. Instant, permanent bonding on a wide range of materials, and no harmful solvents. Still safe and easy to store with a virtually unlimited shelf life.

And the 15mm (5/8") glue sticks are just as easy to load into our tec 15mm (5/8") glue guns. With a narrow profile for improved visibility, and an extension nozzle fitted as standard, accurate glue placement has never been easier.

Still unsure?

Unsure which adhesive formulation is the best match for your application? Just give our sales team a call - they'll be happy to advise you. Find our contact details on the back page.

15mm (½") tec glue guns

Did you know? Over 90% of our products are manufactured in the UK.

Adjustable temperature control

1. The thermostat adjustment tool is stored under the gun's stand.
2. Insert into the thermostat adjustment screw on the underside of the gun. Turning the screw fully anti-clockwise reduces the temperature to 130°C, while turning it fully clockwise increases it to 200°C.

Adjustable temperature, heavy duty medium size 15mm (½") glue gun. Robust and easy to use, fast recovery, medium output, 2 minute warm-up time & illuminated on/off switch.

High output 43mm (1¾”) glue gun for industrial use. All-electric & extremely robust. Power-on light with removable integral stand with built in nozzle spanner.

- **tec 3150**
  - Melt rate: 3kg (6½ lbs)/hr
  - Glue size: 43mm (1¾”) glue cartridge
  - Voltage: 120V and 230V
  - Wattage: 300W
  - Heater: Cartridge
  - Temp Control: Interchangeable thermostat
  - Hotmelt gun °C (°F): 195°C (380°F)
  - Lowmelt gun °C (°F): 130°C (265°F)
  - Power cable: 3m (10 ft)
  - Weight: 1.15kg (2½lbs)
  - Packaging: Plain box (5 per ctn)

Extremely robust 43mm (1¾”) pneumatic glue gun for industrial use. Reduces operator fatigue, power-on light. 7 bar (100psi) 14 l/min (0.5 cfm) air supply required.

- **tec 6100**
  - Melt rate: 4.1kg (9lbs)/hr
  - Glue size: 43mm (1¾”) glue cartridge
  - Voltage: 120V and 230V
  - Wattage: 500W
  - Heater: Cartridge
  - Temp Control: Interchangeable thermostat (Contact distributor)
  - Hotmelt gun °C (°F): 195°C (380°F)
  - Lowmelt gun °C (°F): 130°C (265°F)
  - Power cable: 3m (10 ft)
  - Weight: 1.4kg (3lbs)
  - Packaging: Plain box (5 per ctn)

Extremely robust, very high output 43mm (1¾”) pneumatic glue gun for industrial use. Reduces operator fatigue, speed loader to save time and power-on light. 7 bar (100psi) 14 l/min (0.5 cfm) air supply required.

- **tec 7100**
  - Melt rate: 5.0 kg (11lbs)/hr
  - Glue size: 43mm (1¾”) glue cartridge
  - Voltage: 120V and 230V
  - Wattage: 1000W
  - Heater: Cartridge
  - Temp Control: Interchangeable thermostat (Contact distributor)
  - Hotmelt gun °C (°F): 195°C (380°F)
  - Lowmelt gun °C (°F): 130°C (265°F)
  - Power cable: 3m (10 ft)
  - Weight: 2.3kg (5lbs)
  - Packaging: Plain box (5 per ctn)

Don't forget! You'll need to use an air compressor with the tec 6100 & tec 7100. You can find the tec-AIR 50TDC on page 22.
**Eco-friendly & efficient**

**tec 3400**

High output, electronically-controlled 43mm (1¾") glue gun for industrial use. A powerful tool featuring patented ECOTEC® technology for exceptional temperature precision with eco-friendly phased standby operation.

- **Melt rate**: 3.8kg (8¼lbs+)/hr
- **Glue size**: 43mm (1¾") glue cartridge
- **Voltage**: 120V and 230V
- **Wattage**: 400W
- **Heater**: Cartridge
- **Temp Control**: Electronic plug-in temperature modules
- **Hotmelt gun °C (°F)**: Fitted, Lowmelt 130°C (265°F), 160°C (320°F) and 215°C (420°F) modules included (additional modules available)
- **Lowmelt gun °C (°F)**: Covered above
- **Power cable**: 3m (10 ft)
- **Weight**: 1.15kg (2½lbs)
- **Packaging**: Plain box (5 per ctn)

**Features an automatic stand-by system that takes the temperature down in stages, protecting the gun from damage and saving energy. Stand-by is deactivated when the trigger is pulled.**

**A new, clever trigger-boost system recognises when the gun's trigger is used continuously and increases the power to the heater in response, upping the output even more.**

**Full length trigger that allows highly accurate control of the gun's adhesive flow.**

**Learn more about the tec 3400! Scan for video**

**Unsure?**

Unsure which adhesive formulation is the best match for your application? Just give our sales team a call - they’ll be happy to advise you. Find our contact details on the back page.

**Did you know? Over 90% of our products are manufactured in the UK.**
Could spraytec adhesives work for you?

Tackle sensitive materials

Spray application provides a wider area of adhesion, improving bond strength on weaker substrates when compared with bead application. Thermal damage to temperature sensitive materials is prevented, as the specially formulated adhesive quickly cools when sprayed, but still retains its surface tack.

Clean & efficient

Spray glue is more accurate than aerosols, and gives faster instant grab than solvent based spray adhesives. Did we also mention that it contains no solvent, so it’s completely non-hazardous? Best of all, you only pay for the adhesive that you use, as there is no solvent to evaporate. There are no waste cans to dispose of, and the spray isn’t airborne – so there’s no need for protective masks or overalls, and you won’t be left cleaning up excess glue from your work environment. Unused adhesive left in the tool at the end of the job simply re-melts when the tool is next switched on and can continue to be used in the normal way.

Easy to store

Unlike solvent and water-based spray adhesives, spraytec has an indefinite shelf life and does not require any special packaging, transportation, or storage.

Ideal for...

heat sensitive materials & applications requiring a wide area of coverage

1. **Carpet backing**
   Faster & more efficient than most other systems, spraytec 420 is suitable for carpet backing, particularly felt backed carpets, which have proved difficult for many other types of adhesive.

2. **Mattress assembly**
   Spraytec 420 is ideal for manufacturing mattresses. The instant grab allows the soft top to be placed accurately & firmly. There are no solvent smells or water vapour to encourage mould.

3. **Sensitive materials**
   Bond polystyrene, foam, bubble wrap and other temperature sensitive materials to wood, cardboard and many other substrates.

4. **Pallet stabilisation**
   Spraytec 410 can be used for improving load stability & safety. Stretch & shrink wrapping can be reduced, and the adhesive is easily removable and non-destructive.
43mm (1⅜") spraytec glue guns & spray adhesives

**Don’t forget!**

You’ll need to use an air compressor with the tec 6300 & tec 7300. You can find the tec-AIR 50TDC on page 22.

**43mm (1⅜") spray glue gun**

**Melt rate**: 4.2kg (10lbs)/hr  
**Glue size**: 43mm (1⅜") glue cartridge  
**Voltage**: 120V and 230V  
**Wattage**: 500W  
**Heater**: Cartridge  
**Temp Control**: Interchangeable thermostat  
**Hotmelt gun °C (°F)**: 180°C (350°F)  
**Lowmelt gun °C (°F)**: n/a  
**Power cable**: 3m (10 ft)  
**Weight**: 1.4kg (3lbs)  
**Packaging**: Plain box (5 per ctn)

Extremely robust 43mm (1⅜") spray glue gun with power-on light. Designed for industrial use, it sprays hotmelt at any angle with adjustable spray pattern. A non-toxic adhesive spray system, it covers large areas and applies hotmelt to heat sensitive substrates without damage. 7 bar (100psi) 85 l/min (3 cfm) air supply required.

**tec 6300**

**Melt rate**: 5.25kg (11½lbs)/hr  
**Glue size**: 43mm (1⅜") glue cartridge  
**Voltage**: 120V and 230V  
**Wattage**: 1000W  
**Heater**: Cartridge  
**Temp Control**: Interchangeable thermostat (Contact distributor)  
**Hotmelt gun °C (°F)**: 180°C (350°F)  
**Lowmelt gun °C (°F)**: n/a  
**Power cable**: 3m (10 ft)  
**Weight**: 2.3kg (5lbs)  
**Packaging**: Plain box (5 per ctn)

Extremely robust, 43mm (1⅜") spray glue gun. Non-toxic adhesive spray system, sprays hotmelt at any angle, adjustable spray pattern to cover large areas. Apply hotmelt to heat sensitive substrates without damage. Speed loader to reduce downtime, plus power-on light. 7 bar (100psi) 85 l/min (3 cfm) air supply required.

**tec 7300**

**Spraytec high performance 43mm (1⅜") adhesive cartridges**

Specially designed for use in the tec 6300 & tec 7300, and available to bond virtually any material. The range provides variations in setting time, colour, heat resistance and viscosity to suit most applications.

Did you know? Over 90% of our products are manufactured in the UK.
Don't forget!

We have too many other packaging formulations to list, but if you require a formulation with wider heat and low temperature resistance, for varnished and other difficult surfaces, deep freeze, microwave and low string sift proofing applications, we can help. Please contact us to discuss your application.

Problems? Don't worry! All of our equipment carries a 12 month warranty.
**tec pneumatic reservoir glue guns & workstation**

**Bead or spray gun...**

For bulk or shaped hot melts!

- tec 4500B: Bead gun
- tec 4500S: Spray gun

**tec 4500 guns**

Reliable, easy to use glue gun with a built-in melt chamber that allows the use of adhesives in granular form, pillows, or 43mm (1¾”) slugs. Available in bead (4500B) or spray (4500S) models. 6 bar (90psi) air supply required.

- **Melt rate**
  - Granular: 1kg (2lbs) - Slugs: 2.5 kg (5½lbs)/hr
- **Glue size**
  - Pillows, granules & 43mm (1¾”) glue cartridge
- **Voltage**

- **Power cable**
  - 3m (10 ft)
- **Weight**
  - 4500B: 1.25kg (2.7lbs)  4500S: 1.45kg (3.2lbs)
- **Packaging**
  - Plain box (1 per ctn)

**New tec 4500 workstation**

Converts your tec 4500B & tec 4500S glue guns to a statically mounted, foot operated glue station. Easy to set up, it allows the operator to have both hands free for gluing applications, improving productivity significantly.

- **Reference**
  - tec 4500 workstation
- **Description**
  - Workstation & foot pedal

**Why not add a work station?**

The new tec 4500 workstation converts your tec 4500B & tec 4500S glue guns to a statically mounted, foot operated glue station. Easy to set up, it allows the operator to have both hands free for gluing applications, improving productivity significantly.

The tec4000-TK (Timer Control) enables a controlled amount of adhesive to be applied. This improves quality, guarantees consistent bonding and reduces the amount of adhesive used. Can only be used in conjunction with the bench mount kit & workstation.

Spray nozzles

Available to fit tec 6300 & tec 7300

Each spray nozzle includes these parts

---

Problems? Don’t worry! All of our equipment carries a 12 month warranty.
Strong & non-toxic

Tecbond adhesives will not have an adverse chemical effect on the substrates or the contents being packed, unlike solvent based adhesives which could damage expensive or delicate contents. Hot melts will give you a very strong tamper-proof seal that adds extra security to your packaging, as well as improving the rigidity of the carton. Plus, by using tecbond hot melts, you won’t obscure any graphics that could be printed on the outside of the carton, as can often happen when using other closing systems such as tape or staples.

Fast, clean bonds

With almost instant setting speeds, tecbond hot melts offer fast, clean bonding on a range of substrates with no messy residue once cooled.

Speciality nozzles available

Extension, multi-hole, and spray nozzles are available to help you optimise your tec glue guns and tecbond glue for packaging. We particularly recommend the ADJ017 and ADJ018 nozzles that have been developed specifically for fast and efficient carton closing.

Consider switching your tape and stretch film for a glue gun and hot melt adhesives when it comes to packaging - they’re stronger, faster, cleaner & non-destructive.

Ideal for... saving time and money on packaging applications

1. **POS displays**
   Tecbond 265 or 261 are able to bond most varnish and coated boards used in point of sale displays, having been specially formulated to bond difficult substrates.

2. **Protective foams**
   Attaching protective foams and similar materials to the inside of cardboard or wooden cases is made easy and fast using tecbond hotmelt or spraytec adhesive.

3. **Packaging**
   For fast closing of cartons, tray assembly, and wrap-around packaging, tecbond 14 or 214 provide the ideal solution. See also ADJ017 & ADJ018 nozzles for carton closing.

4. **Sensitive materials**
   Spraytec adhesive is ideal for attaching heat-sensitive substrates such as polystyrene, and for achieving wide coverage, making it ideal for pallet stabilisation. See page 15 for details.
Woodworking with hot melt adhesives

Still using traditional fastenings?

Did you know that hot melts are faster to apply, create a stronger, cleaner bond, are more efficient and less destructive than cold glue, tape, and staples?

Not just for bonding

Even though we’re very good at it. But with such a comprehensive range of tecbond glues on offer, we’ve got both bonding and wood filling covered. So not only can you assemble things like V-grooves and templates, attach corner blocks and reinforcing cleats to furniture, and even add some decorative mouldings here and there, you can also use tecbond glues to repair knot damage and scratches to wooden surfaces.

Additional tools

There’s the Mouseplane® (page 23) to help you trim away wood and dried glue, and extension nozzles are available for filling tricky gaps and voids (see page 18 or call our sales team to find out about more options). If you want a tool that can cope with bonding and wood filling, we’d recommend the tec 820. The adjustable temperature means that it can be turned down to around 160ºC-180ºC for wood filling (the lower temperature draws less moisture out of the wood), and turned up to around 195ºC for bonding wood, as this gives better bond strength. See page 4, or page 11, for more information.

For more information on how tec & tecbond products can help with your woodworking applications, call our sales team. You can find our contact details on the back page.

Ideal for... a range of bonding & wood-filling applications

1. Knot filling
   Fast and effective repair of knot defects, scratches and other forms of deep wood damage. We’d recommend using the tec 305, or the tec 820 with the temp adjusted to 160ºC - 180ºC.

2. Assembly
   Bond decorative mouldings onto caskets, assemble V-grooves, build templates quickly and easily.

3. Reinforcing
   Fasten corner blocks, secure reinforcing cleats to drawer bottoms and wardrobe & cabinet backings, and make mirror to frame fastening quicker and easier.

4. Flooring
   Attach wooden gripper rods to flooring in no time, and complete wooden floor repairs with coloured adhesive filler. Call us for more information.

The tec 805-15, 806-12, b-tec 807, tec 820, tec 3400 and tec 6100 are all good options for woodworking.
Most hotmelts run at the ‘standard’ glue gun temperature of 195°C (380°F), but we also offer lowmelts that run at 130°C (265°F) and heat resistant polyamides that run at 215°C (420°F). It is also sometimes useful to run at a lower temperature to prevent heat damage to some materials the adhesive might be applied to. The tools in the table below can have thermostats or modules changed by a competent person to adjust the temperature.

Did you know? Over 90% of our products are manufactured in the UK.
The tec 6100-BMK (Bench Mount Kit) converts your tec 6100 & tec 7100 to a statically mounted, foot operated glue station. It allows the operator to have both hands free for gluing applications, improving productivity by up to 100%.

The tec4000-TK (Timer Control) enables a controlled amount of adhesive to be applied. This improves quality, guarantees consistent bonding and reduces the amount of adhesive used. Can only be used in conjunction with the bench mount kit & workstation.

Spring balancer

The SB-1200 spring balancer is a tool support system with an easily adjustable tension and a maximum cord length of 1.6 metres (5ft). It minimises operator fatigue, increases productivity and prevents tools from being dropped & damaged.

Presssure regulator

This combined pressure regulator, filter and water separator is ideal for use with the tec 6100, tec 6300, tec 7100 & tec 7300 glue guns. It is used to ensure accurate adhesive dispensing and long tool life.

Please note: Timer unit is sold separately!

Please note: Fitting not supplied.

Problems? Don't worry! All of our equipment carries a 12 month warranty.
Mouseplane®

Trim glue lines & wood in no time!

For the flush trimming of glue lines and wood, the Mouseplane® takes away the need for heavy duty sanding to remove dried glue or to level wood surfaces. It is a most useful tool for carpenters, builders, kitchen fitters and cabinet makers.

It has the comfort and ease-of-use of a plane, combined with the sharpness and speed of a chisel.

Carry case

DDP003-SPARES

Multi-purpose carry-case, can be used with gas-tec 600, tec 305 & most tec 800 series guns. Can also take the tec mat and other accessories.

Silicone drip mat

TEC MAT

Silicone rubber drip mat protects work surface.
Size 200mm x 200mm x 1.75mm

Carry case

DDP004-SPARES

Multi-purpose carry-case for use with the b-tec 807 glue gun. Can also take the tec mat and other accessories.

Refillable gas cartridge x 3

TEC LEC-10

Supplied in packs of three refillable LEC™ cartridges (for use with the gas-tec 600).

Did you know? Over 90% of our products are manufactured in the UK.
We are a highly motivated, British based, ISO 9001 company. We source our components and raw materials from some of the best companies in the world. Over 90% of our products are manufactured in the UK.

To reduce our impact on the environment our adhesives are often formulated using raw materials that have been harvested from sustainable, managed forests. Our packaging is recyclable and where possible made from recycled materials.
