Technical Datasheet

xemex™ (ze'meks)

Xemex is the most efficient mixer of its kind. Xemex optimizes adhesive performance, halves material waste, and brings dispensing closer to your work surface. Replacing the traditional catalog of mixers, Xemex comes as a single, optimized design to work on all of your applications. Contact our exclusive distributor, Ellsworth Adhesives, to learn more.

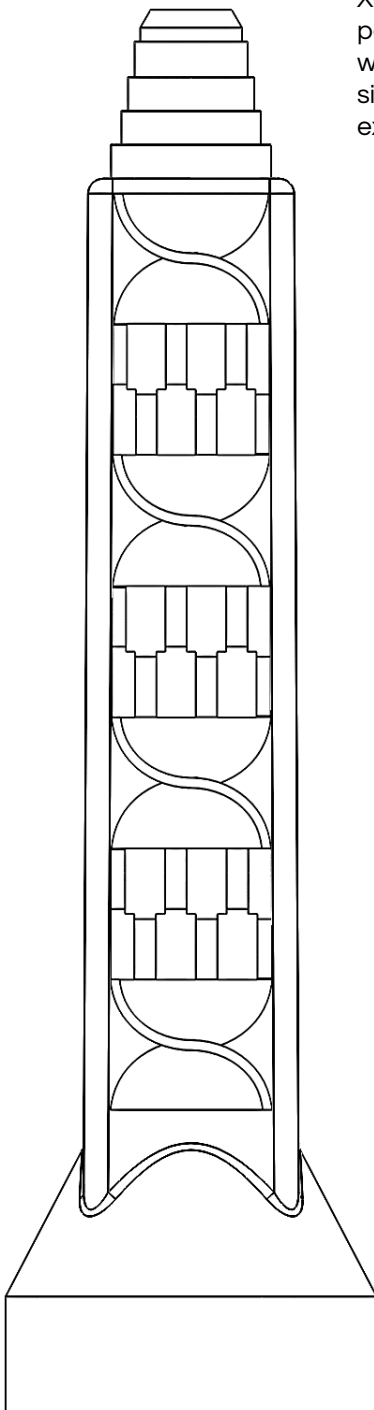

Benefits

- Improves adhesive strength
- Reduces retained volume to 2.5mL
- Eliminates bubbling and air-entrapment issues
- Increases operator dexterity and positional accuracy
- Simplifies manufacturing. Use one mixer for all of your formulations

Features

- Designed for standard bell-style connections
- Optimized to work across common mix ratios: 1:1, 2:1, 4:1, 10:1
- Balanced to mix a wider variety of formulations:
Epoxies, Acrylics, Methacrylates, Silicones and Urethane foams
- Developed for automation & manual applications alike, where performance and positional accuracy matter

Insert Material:	PA (Natural)
Housing Material:	PP (Clarified)
Total Length:	75mm
Inside Diameter:	8.7mm
Retained Volume:	2.5mL
Ratios Served:	1:1, 2:1, 4:1, 10:1
Systems Served:	Cartridge, Meter-Mixing
Connection Served:	Bell / MS-Bell / AC-Series
